

...Around the Clock Catering Solutions

The National Vendors **Shoppertron** can proudly boast to being the world's most popular fresh food merchandiser, offering the widest selection of products from the same machine. The standard configuration offers 138 items and 27 different pricing options. With each product occupying an

individual compartment, the Shoppertron offers customers a wide and varied range of products. Each compartment can hold a plated meal or can be separated into a maximum of four segments to offer sandwiches, snacks, dairy products, fruit or cold drinks.

Shoppertron - Model 431

Key Shoppertron features:

- The highly efficient, environmentally friendly refrigerated system keeps products fresher for longer
- Easy clean compartments ensure optimum hygiene standards can be maintained at all times
- Compartment sizes can be altered quickly and without tools, allowing products to be changed according to customer preference
- Ideal machine for shift work environments. 'Vend inhibit' mode reserves a selection of items until a set time
- Programmable Time Events and Free Vend modes enable the machine to be set to operate differently according to the time of day or type of customer
- Exclusive 'prefer maximum' program displays the fullest zone when not in use, maintaining superior visual appearance
- Standard components, common to the National Vendors range, ensure servicing and parts supply is quick and convenient

Market leaders in snack, food and drinks vending for over 75 years, National Vendors are renowned for class leading reliability, high quality, and innovative vending solutions.

National Vendors are part of the operating group Crane Merchandising Systems, which provides innovative technological and business solutions to vend operators and suppliers throughout the world.

Refrigerated Product Compartments

The rotating drum is fully refrigerated and ensures that air is evenly distributed throughout the individual compartments. This keeps all products at the optimum temperature for complete customer satisfaction.

A convenient storage area, situated next to the drum, keeps additional products refrigerated and ready for re-stocking.

Branding Opportunities

Offering branded products provides strong point-of-sale impact as well as customer recognition and reassurance that keeps them coming back for more. National Vendors machines provide the perfect platform to attract these increased sales which in turn lead to increased profits!

All National Vendors machines provide operators with excellent branding opportunities, drawing attention to the products on offer. This in turn increases customer confidence and promotes sales.

Product Choice

The Shoppertron has been designed to meet the varying needs of a 24 hour refreshment service.

Products are stocked into individual compartments on 9 rotating shelves. Each shelf comprises six compartments, each of which can be divided into two, three or four segments.

Trays can be easily configured to hold a selection of plated main meals to small snack items, maximising the available space and offering customers a wide choice of products.

Payment Systems

The Shoppertron is compatible with the leading M.D.B. and Executive coin and cashless systems.

Either option can be fitted depending on the payment format required.

Audit Information

The Shoppertron is equipped with an innovative audit system which records sales information, aiding stock control and machine management.

This information can be recalled by the operator via the machine's display panel and a printed copy produced using a hand-held printer.
